FY2022 Operating Budget Requests

Overview: For the FY2022 budget process we are continuing to work to streamline the way in which departments submit information so that the budget books are complete for each department and the Board of Selectmen, Finance Committee, and ultimately voters have the information that they need to make informed decisions. Operating budget requests should reflect level funding for services that are currently being offered and/or have already been approved to expand for FY2022. It is understood that contractual requirements and fixed costs increases need to be addressed. Budget requests should first consider if those increases can be absorbed within the existing appropriation before requesting increases. It is important to remember that the COVID-19 pandemic has already reduced State receipts in FY2021 and it should be anticipated that we will see no additional funds on the State level as we prepare for FY2022.

Salary/wage Adjustments: using the compensation schedules, it should be straightforward to calculate the wage adjustments for each employee in your department for FY2022. The Treasurer's office can confirm longevity adjustments. Please let me know if you require assistance with this.

Departmental Education & Training: The Board and the Finance Committee would like to ensure that each department has budgeted for the continuing education of staff. This is for job related trainings, certifications, and coursework. Some departments already have this budgeted for, while others may not. For the FY2022 budget it will be a designated line-item in departmental budgets. I am happy to discuss further.

Submission Requirements:

Operating budget requests **must** include two (2) components: the completed budget request worksheet and a budget narrative.

Operating Budget Request worksheet: please complete the enclosed FY2022 budget request worksheets by filling in the amount requested in the appropriate line item. Simply markup this paper copy. If you do not need a line item funded, please mark it "0". If you need additional line items, please list the line item description with the amount requested. Completed forms should be signed before being returned to me.

Departmental Narrative: This is meant to be brief and informative. The idea is to help decision makers understand the highlights and challenges of your department and how your operating budget request meets the challenges and goals for FY2022. If your request significantly reduces a line item and/or increases a line item, the rationale should be explained. This narrative should be no longer than 1 page and it should be typed. Please use the provided PDF form. A printed copy should accompany your budget worksheet and an electronic copy should be emailed to administrator@erving-ma.gov.

**Deadline: FY2022 departmental operating budget requests are due:
5:00 PM on Friday, November 27, 2020.**

Please note: Failure to submit a budget request by the deadline may result in an inability to appropriate for your department/agency

The narrative should specifically address:

- FY2021 Highlights & Challenges
- FY2022 Goals & Initiatives
- Significant Budget Changes

Additional Information

Understanding General Fund Account Numbers

The Town of Erving expense account numbers are comprised of four (4) columns that have a specific meaning. All General Fund expense account numbers begin with the designation “01.”

Department Code: The three (3) digit code number that follows the general fund designation is the department code for the department. In this example the Selectmen are department code “122.”

Expenditure Categories: The three (3) digit number that follows the department code relates to the expense categories. The 100 series relates to salary and wage expenses and therefore they are subtotaled as such. The 200 series are ordinary expenses and the 900 series are special articles. Special articles include recurring appropriations and capital projects. (If you are closing out a special article you can make that note in the column).

Expenditure Objects: the final five (5) digit numbers are specific expenditure types that are guided by the Uniform Massachusetts Accounting System. This level of details allows the department to track specific expenses such as “office supplies,” “electricity,” “travel/mileage,” etc. They all begin with the number “5”.

- Numbers that begin with “51000” are for personnel services
- Numbers that begin with “52000 and 53000” are for the purchase of services
- Numbers that begin with “54000 and 55000” are for the purchase of supplies
- Numbers that begin with “57000” are for other charges and expenses

Account Number/Department	
01-122-100-51000	Selectboards Salaries
01-122-101-51100	Administrative Coordinator
