Independent Auditor's Report

To the Honorable Select Board Town of Erving, Massachusetts

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Erving, Massachusetts, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town of Erving, Massachusetts' basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Erving, Massachusetts, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Erving, Massachusetts, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Erving, Massachusetts' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Erving, Massachusetts' internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Erving, Massachusetts' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension plan and other post-employment benefit plan schedules, as listed on the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Erving, Massachusetts' basic financial statements. The accompanying Supplementary Schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of the Town of Erving, we offer readers of these financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the Town's financial performance as a whole. Readers should also review the financial statements and the notes to the financial statements to enhance their understanding of the Town's financial performance.

Financial Highlights

- The Town's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$37,929,968 (net position) for the fiscal year reported. This compares to the previous year when assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$37,758,963, an increase of \$171,005 (.5%).
- At the close of the current fiscal year, the Town's governmental funds reported total ending fund balance of \$18,896,364 or an increase of \$1,099,336 (6%) in comparison with the prior year.
- The General Fund's total fund balance increased \$1,050,198 (6%) to \$17,350,771. The ending General fund balance is 124% of revenues and transfers in and 134% of expenditures and transfers out.
- Total liabilities of the Town increased by \$1,772,156 (20%) to \$10,476,887 during the fiscal year. This was mainly attributed to an increase in warrants and accounts payable of \$426,778 and in the pension liability of \$2,009,232 and a decrease in the other post-employment benefit (OPEB) liability of \$613,687.
- The Town had General Fund free cash certified by the Department of Revenue in the amount of \$769,827. The key factors that attributed to the free cash amount for fiscal year 2023 were unexpended/unencumbered appropriations of \$706,300, excess over budget state and local receipts of \$38,800 and excess over budget other financing sources of \$66,500.
- The Town's enterprise funds certified free cash are as follows:

\triangleright	Wastewater fund	\$ 1,018,566.

➢ Water fund \$ 228,891.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Erving's basic financial statements. These basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all assets, deferred outflows of resources, liabilities and deferred inflows of resources with the net difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, public safety, public works, education, health and human services, culture and recreation, employee benefits and insurance; and state assessments. The business-type activity includes wastewater and water.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund statements focus on *near-term inflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

The Town of Erving adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds. The Town maintains one type of proprietary fund.

Enterprise funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses enterprise funds to account for its wastewater and water activities.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$37,929,968 at the close of fiscal year 2023.

Net position of \$20,167,449 (53%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the investment in its capital assets is reported net of its related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the net position, \$2,158,084 (6%), represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* \$15,604,435 (41%) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report positive balances in all categories of net position for its separate governmental activities, for its business-type activities and for the government as a whole.

The governmental activities net position increased by \$66,272 (.2%) during the current fiscal year. The significant reasons for the increase in net position are attributed to a net increase in the governmental funds of \$1,099,336 and in recognizing this year's change in the deferred outflow/(inflow) of resources related to pensions of \$1,679,718; and to the decreases in the change to the deferred outflow/(inflow) of resources related to OPEB of \$883,463 and to the pension liability of \$1,921,573 as compared to the prior year.

There was an increase of \$104,733 (2%) in net position reported in connection with the business-type activities. Of this, there was an increase of \$139,179 attributed to the wastewater department and a decrease of \$34,446 attributed to the water department.

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing financing requirements. In particular, the general fund *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$18,896,364 or an increase of \$1,099,336 (6%) in comparison with the prior year.

Breakdown of the governmental funds are as follows:

- Nonspendable fund balance \$9,840 (.1%).
- Restricted fund balance \$1,536,529 (8.1%).
- Committed fund balance \$1,684,934 (8.9%).
- Assigned fund balance \$1,069,672 (5.7%).
- Unassigned fund balance \$14,595,389 (77.2%).

Major Governmental Funds

The General Fund is the Town's primary operating fund and the largest source of day-to-day operations. At the end of the fiscal year, the General Fund reported a total fund balance of \$17,350,771 increasing \$1,050,198 (6%). Of the \$17,350,771, the unassigned amount is \$14,663,879 (85%), the committed amount is \$1,617,220 (9%) and the assigned amount is \$1,069,672 (6%). General fund revenues were \$749,872 (6%) more and expenditures also increased by \$917,936 (8%) from the prior fiscal year. Other activity in the General Fund consisted of net transfers out to other funds of \$659,614.

The main components of the increase in general fund revenues were related to an increase in property taxes of \$353,148 (4%); and in investment income of \$338,496 (282%) from the prior year.

The major changes with the general fund expenditures from the prior fiscal year were as follows:

- Increase in General government expenditures of \$293,682 (26%).
- Increase in Public safety expenditures of \$132,435 (14%).
- Increase in Public works expenditures of \$195,024 (23%).
- Increase in Education expenditures of \$132,270 (3%).
- Increase in Employee benefits and insurance expenditures of \$137,513 (6%).

Proprietary funds. The proprietary funds statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status.

Major Proprietary Fund

The *Wastewater Fund* has accumulated a fund balance of \$5,266,400 used in the financing and operations of the Town's wastewater system. The wastewater fund shows an increase of \$139,179 (3%) in total operations. This change was mainly attributed to operating expenses exceeding operating revenues by \$670,392, interest income of \$7,419, interest expense of \$99,471 and net transfers in from the general fund of \$901,623. Operating revenues decreased by \$34,037 (13%) while operating expenses increased by \$24,654 (3%) from the prior year.

The *Water Fund* has accumulated a fund balance of \$998,349 used in the financing and operations of the Town's water system. The water fund shows a decrease of \$34,446 (3%) in total operations. This change resulted from operating expenses exceeding operating revenues by \$36,810 and interest income of \$2,364. Operating revenues decreased by \$2,016 (2%) while operating expenses increased by \$9,198 (7%) from the prior year.

General Fund Budgetary Highlights

The final general fund budget for fiscal year 2023 was \$14,154,500. This was an increase of \$930,842 (7%) over the previous year's budget.

There was an increase between the original budget and the total final amended budget. The change is attributed to funds voted from available funds at various special town meetings for various budget operating line items.

General fund expenditures were less than budgeted by \$2,382,185. Of the \$2,382,185 in under budget expenditures, \$1,675,892 has been carried over to fiscal year 2024.

There was a negative variance in excise and other taxes of \$22,899 as expectations (budget) were higher than the receipts.

Overall, the variance with the final budget was a positive \$1,026,397 consisting of a revenue surplus of \$320,104 and an appropriation surplus of \$706,293.

Capital Asset and Debt Administration

Capital Assets. The Town's investment in capital assets for its governmental and business-type activities amounts to \$15,598,860 and \$7,778,472, respectively.

The investment in capital assets includes land, construction in progress, buildings and renovations, machinery, equipment and other and infrastructure.

Major capital events during the current fiscal year in the governmental type funds included the following:

- Foreclosure properties for \$20,974
- Police vehicle purchases for \$107,320.
- Highway vehicle and equipment purchases for \$325,072.
- Road and sidewalk infrastructure improvements for \$59,000.
- School improvements and equipment purchases for \$64,458.

The major capital events during the current fiscal year in the business-type fund included the following:

- Wastewater vehicle purchase for \$32,852.
- Wastewater infrastructure improvements for \$212,643.

Debt Administration. The Town has no outstanding governmental long-term debt as of June 30, 2023.

The Town has a noncancelable lease for the purchase of a loader for the department of public works. The lease is due in 2026. The Town currently owes \$163,919 on this lease consisting of \$147,831 in principal and \$16,088 in interest.

The business-type funds have outstanding long-term debt as of June 30, 2023 totaling \$3,062,052, all of which relates to wastewater treatment plant improvements.

Please refer to notes 3D, 3F and 3G for further discussion of the capital assets and debt activity.

Next Year's Annual Town Meeting

The Town of Erving operates under the "Open Meeting" concept where each voter has an equal vote in adopting of Town budgets and appropriations. The financial statements for June 30, 2023 do not reflect the fiscal year 2024 Town Meeting action except for the unassigned fund balance (free cash) amount used to fund the 2024 budget. The Annual Town Meeting on May 10, 2023 authorized a fiscal year 2024 operating and capital budget as follows:

From raise and appropriate		\$	13,105,875
From wastewater revenues	\$ 236,232		
From wastewater retained earnings	 75,000	_	311,232
From water revenues		_	105,240
From Other Available Funds:			
General Fund:			
Unassigned fund balance:			
Free cash			1,011,000
Non-major Governmental Funds:			
Cable access grants			20,200
		\$	14,553,547

Requests for Information

This financial report is designed to provide a general overview of the Town of Erving's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town Accountant, 12 East Main Street, Erving, Massachusetts 01344.

Fund Balances, End of Year	\$	17,350,771	\$	1,545,593	\$	18,896,364

TOWN OF ERVING, MASSACHUSETTS Reconciliation of the Governmental Funds Balance Sheet Total Fund Balances to the Statement of Net Position For the Year Ended June 30, 2023

Total Governmental Fund Balances		\$ 18,896,364
Capital Assets (net) used in governmental activities are not financial resources and therefore, are not reported in the funds.		15,598,860
Revenues are recognized on an accrual basis of accounting instead of a modified accrual basis.		580,386
The statement of net position includes certain deferred inflows of resources and deferred outflows of resources that will be amortized over future periods. In governmental funds, these amounts are not deferred.		2,658,410
Long Term liabilities are not due and payable in the current period and therefore, are not reported in the governmental funds: Leases Payable Net Other Post Employment Benefits Liability Net Pension Liability Compensated Absences	\$ (147,831) (2,454,510) (3,336,279) (130,181)	(6,068,801)
Net Position of Governmental Activities		\$ 31,665,219

TOWN OF ERVING, MASSACHUSETTS Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2023

Net Change in Fund Balances - Total Governmental Funds		\$ 1,099,336
Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and are reported as depreciation expense: Capital Outlay Purchases Depreciation	\$ 576,824 (880,130)	(303,306)
Revenue in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, motor vehicle excise, etc.) differ between the two statements. This amount represents the net change in unavailable revenue.		(30,040)
The issuance of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position: Repayment of Lease Principal Proceeds from Lease	 54,669 (202,500)	(147,831)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds: Net Change in Compensated Absences Net Change in Net Other Post Employment Benefits Liability Net Change in Deferred Outflow/(Inflow) of Resources Related to OPEB Net Change in Net Pension Liability Net Change in Deferred Outflow/(Inflow) of Resources Related to Pensions	 (19,255) 592,686 (883,463) (1,921,573) 1,679,718	(551,887)
Change in Net Position of Governmental Activities		\$ 66,272

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the Town of Erving, Massachusetts (the Town) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The significant Town accounting policies are described herein.

A. Reporting Entity

The Town was incorporated in 1838 under the laws of the Commonwealth of Massachusetts. The Town is governed by an elected three-member Select Board.

For financial reporting purposes, the Town has included all funds, organizations, account groups, agencies, boards, commissions and institutions. The Town has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the basic financial statements to be misleading or incomplete. In fiscal year 2023, it was determined that no entities met the required GASB-39 and GASB-61 criteria for component units.

The Town is responsible for electing the committee members of the Gill-Montague Regional School District and the Franklin County Technical School District. The Town is indirectly liable for debt and other expenditures of the School Districts and is assessed annually for its share of operating and capital costs. These related organizations are excluded from the financial reporting entity because the Town's accountability does not extend beyond the Town electing the board members. Audited financial statements are available from the respective organizations. A description of the related organizations is as follows:

- **Franklin County Technical School District** A regional school district made up of nineteen communities to serve and provide high quality vocational education environment. The regional school district is a separate entity under the Commonwealth of Massachusetts. The Town appoints one district committee member for its representation. The District is responsible for both the operating and capital costs related to the school and operates independently from the Town.
- **Gill-Montague Regional School District** A regional school district made up of three communities to serve and provide a learning environment in specific career areas. The regional school district is a separate entity under the Commonwealth of Massachusetts. The Town elects three school committee members for its representation. The District is responsible for both the operating and capital costs related to the school and operates independently from the Town.

B. Government-Wide and Fund Financial Statements

Government-wide financial statements

The government-wide financial statements (e.g., statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which are supported primarily by user fees and charges.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund financial statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are aggregated and displayed in a single column.

Because governmental fund statements are presented using a measurement focus and basis of accounting different from that used in government-wide statements' governmental column, a reconciliation is presented that briefly explains the adjustments necessary to reconcile ending net position and change in net position.

Major Fund Criteria

Major funds must be reported if the following criteria are met:

• If the total assets, liabilities, revenues or expenditures/expenses of an individual governmental fund are at least 10 percent of the corresponding element (assets, liabilities, etc.) for all funds of that category or type (total governmental funds),

and

• If the total assets, liabilities, revenues or expenditures/expenses of the individual governmental funds are at least 5 percent of the corresponding element for all governmental funds combined.

Additionally, any other governmental fund that management believes is particularly significant to the basic financial statements may be reported as a major fund.

Proprietary and fiduciary funds are reported by fund type.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide financial statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis* of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Town's enterprise funds and various other functions of the Town. Elimination of these charges would distort the direct costs and program revenues of the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported.

Fund financial statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis* of accounting. Under the modified accrual basis concept, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon thereafter to be used to pay current liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, excises and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditure driven grants recognize revenue when the qualifying expenditures are incurred and all other grant requirements are met.

The Town reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Town reports the following major proprietary funds:

The wastewater fund is used to account for the wastewater activities.

The water fund is used to account for the water activities.

The non-major governmental fund consists of other special revenue, capital projects and permanent funds that are aggregated and presented in the *non-major governmental funds*' column on the governmental funds' financial statements. The following describes the general use of these fund types:

The special revenue fund is used to account for the proceeds of specific revenue sources (other than permanent or capital projects funds) that are restricted by law or administrative action to expenditures for specified purposes.

The *capital projects fund* is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Enterprise and Trust Funds).

The *permanent fund* is used to account for financial resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the governmental programs.

Additionally, the Town reports the following fund types:

Fiduciary fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Fiduciary funds are used to account for assets held in a trustee capacity for others that cannot be used to support the government programs. The Town reports the following fiduciary funds:

The Other Post Employment Benefit (OPEB) Trust Fund is used to account for the assets held by the Town in trust for the payment of future retiree health insurance benefits. The assets of the OPEB Trust Fund cannot be used to support the Town's operations.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Cash and Cash Equivalents

Cash balances from all funds, except those required to be segregated by law, are combined to form a consolidation of cash. Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition. The Town maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption, "cash and cash equivalents".

Excluding the permanent funds, investment income derived from major and non-major governmental funds is legally assigned to the general fund unless otherwise directed by Massachusetts General Laws (MGL).

Investment income from proprietary funds is maintained in those funds.

E. Investments

The Town maintains investments according to Massachusetts General Laws and adopted policies. Investments are reported according to the fair value hierarchy established by generally accepted accounting principles. Investments are defined as securities or other assets that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchy is based upon valuation inputs, which are assumptions that market participants would use when pricing an asset or a liability, including assumptions about risk.

Level 1 inputs are quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 inputs are directly observable for an asset or a liability (including quoted prices for similar assets or liabilities), as well as inputs that are indirectly observable for the asset or liability.

Level 3 inputs are unobservable for the asset or liability.

Certain investments, such as money market investments and 2a7-like external investment pools, are reported at amortized cost. 2a7-like pools are external investment pools that operate in conformity with the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended and should be measured at the net asset value per share provided by the pool.

Additional investment disclosures are presented in these Notes.

F. Receivables

The recognition of revenues related to accounts receivable reported in the government-wide financial statements and fund financial statements are reported under the accrual basis of accounting and the modified accrual basis of accounting, respectively.

Property Taxes and Tax Liens

Property taxes are based on assessments as of January 1, 2022 and include betterments, special assessments and liens. Taxes are used to finance the operations of the Town for the fiscal year July 1st to June 30th. By law, all taxable property in the Commonwealth of Massachusetts must be assessed at 100% of fair cash value. Taxes are due and payable on July 1st. The first tax payment is due November 1st, or thirty days after the date tax bills were mailed, whichever is later and must be at least one-half of the tax and any betterments. The balance of the tax is owed by May 1st of the following year. If payments are not made by the due dates, interest at the rate of 14% will be charged on the amount of the payment that is unpaid and overdue. The Town has an ultimate right to foreclose on property for which taxes have not been paid. Property taxes levied are recorded as receivables. Revenues from property taxes are recognized in the fiscal year for which they have been levied.

The Town mailed tax bills for the fiscal year 2023 that were due on January 5, 2023 and May 1, 2023, respectively.

The Commonwealth of Massachusetts electorate in November, 1980, passed legislation known as Proposition 2 1/2, in order to limit the amount of revenue to be raised by taxation. The purpose of the legislation was to control the levy of taxes that are assessed to property owners of a Town. The legal levy limit under Proposition 2 1/2 for fiscal year 2023 is \$12,077,356.

The total amount raised by taxation was \$12,075,783.

The allowance for uncollectible accounts is based on historical trends and specific account analysis.

Excise Taxes

Excise taxes consist of motor vehicle excise. Excise taxes are assessed annually for each vehicle registered in the Town and are recorded as receivables in the fiscal year of levy. The Commonwealth is responsible for reporting the number of vehicles registered and the fair value of those vehicles.

The tax calculation is the fair value of the vehicle multiplied by the \$25 per \$1,000 of value.

The allowance for uncollectibles is based on historical trends and specific account analysis.

User Charges

User charges and fees consist of water that are levied annually based on individual meter readings and are subject to penalties and interest if they are not paid by the respective due date. Water charges are recorded as receivables in the fiscal year of the levy.

The allowance for uncollectible accounts is estimated based on historical trends and specific account analysis.

Departmental

Departmental receivables consist of loans due from recipients that were loans from community development funds.

These receivables are considered 100% collectible and, therefore, do not report an allowance for uncollectibles.

Due from Other Governments

Various federal and state grants for operating and capital purposes are applied for and received annually. For non-expenditure driven grants, revenue is recognized as soon as all eligibility requirements imposed by the provider have been met. For expenditure driven grants, revenue is recognized when the qualifying expenditures are incurred and all other grant requirements are met.

These receivables are considered 100% collectible and, therefore, do not report an allowance for uncollectibles.

G. Capital Assets

Capital assets, which include land, construction in progress, buildings and renovations, machinery, equipment and other, and infrastructure assets (e.g., roads, water mains, wastewater mains, and similar items), are reported in the applicable governmental or business-type activity column of the government wide financial statements. Capital assets are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair market value.

All purchase and construction costs in excess of \$5,000 are capitalized at the date of acquisition or construction, respectively, with expected useful lives of greater than one year.

Capital assets (excluding land and construction in progress) are depreciated on a straight-line basis. The estimated useful lives of fixed assets are as follows:

Capital Asset Type	Years
Buildings and renovations	20-40
Machinery, equipment and other	3-15
Infrastructure	20-50

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized and are treated as expenses when incurred. Improvements are capitalized.

H. Interfund Transfers

During the course of its operations, resources are permanently reallocated between and within funds. These transactions are reported as operating transfers in and operating transfers out.

In the government-wide financial statements, operating transfers between and within governmental funds are eliminated from the governmental activities in the statement of activities. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of activities as "Transfers' net".

In the fund financial statements, operating transfers between and within funds are not eliminated from the individual fund statements and are reported as operating transfers in and operating transfers out.

I. Deferred Outflows/Inflows of Resources

Government-wide financial statements

The government-wide financial statements *Statement of Net Position* includes a separate section, listed below total assets, for *deferred outflows of resources*. This represents the usage of net position applicable for future period(s) and will not be recognized as expenditures until the future period to which it applies. Currently, the only items in this category are *deferred outflows related to pensions and deferred outflows related to OPEB*.

In addition to liabilities, the *Statement of Net Position* will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. Currently, the items in this category are *deferred inflows related to pensions and deferred inflows related to OPEB*.

Fund financial statements

In addition to liabilities, the governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has only one type of item, which arises only under a modified accrual basis of accounting that qualifies in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for the Town's property and excise taxes; departmental revenue and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

J. Net position and Fund Balances

In the Government-Wide financial statements, the difference between the Town's total assets, deferred outflows of resources, total liabilities and deferred inflows of resources represents net position. Net position displays three components – net investment in capital assets; restricted (distinguished between major categories of restrictions); and unrestricted. Unrestricted net position represents the net position available for future operations.

Net position classified as net investment in capital assets, consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Net position has been "restricted for" the following:

"Capital projects" represents amounts restricted for capital purposes.

"Federal and state grants" represents amounts restricted by the federal and state government for various programs.

"Permanent funds – nonexpendable" represents amounts held in trust for which only investment earnings may be expended.

"Permanent funds – expendable" represents amounts held in trust for which the expenditures are restricted by various trust agreements.

"Other purposes" represents restrictions placed on assets from outside parties.

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of those resources.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

Restricted fund balance. This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance. These amounts can only be used for specific purposes pursuant to constraints imposed by formal action of the Town's highest level of decision-making authority, which is the Town meeting action and can be modified or rescinded only through these actions. Committed amounts cannot be used for any other purpose unless the Town removes or changes the specified use by taking the same type of action it employed to previously commit.

Assigned fund balance. This classification reflects the amounts constrained by the Town's "intent" to be used for specific purposes, but are neither restricted nor committed. Department heads and Town board/committees have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance. This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When the restricted and other fund balance resources are available for use, it is the Town's policy to use restricted resources first, followed by committed, assigned, and unassigned amounts respectively.

K. Long-term Debt

Long-term debt is reported as liabilities in the government-wide and proprietary fund statement of net position. Material bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

The face amount of governmental funds long-term debt is reported as other financing sources. Bond premiums and discounts, as well as issuance costs, are recognized in the current period. Bond premiums are reported as other financing sources and bond discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual bond proceeds received, are reported as general government expenditures.

L. Investment Income

Investment income derived from major and non-major governmental funds is legally assigned to the general fund unless otherwise directed by Massachusetts General Laws (MGL).

M. Compensated Absences

The Town grants to employees sick and vacation leave in varying amounts based upon length of service and in accordance with various individual union contracts. Upon retirement, termination, or death, certain employees are compensated for unused sick leave (subject to certain limitations) at their current rates of pay.

N. Pension Benefits

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Franklin Regional Retirement System (the System) is provided. Additions to and deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the system. For this purpose, benefit payments (including refunds of employee contributions), are recognized when due and payable according with the benefit terms. Investments are reported at their fair value.

O. Post-Retirement Benefits

In addition to providing pension benefits, health insurance coverage is provided for retired employees and their survivors in accordance with MGL, Chapter 32, on a pay-as-you-go basis. The cost of providing health insurance is recognized by recording the employer's 77% share of insurance premiums for retirees and spouses and 77% for surviving spouses in the general fund in the fiscal year paid.

P. Use of Estimates

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

Q. Total Column

The total column on the fund financial statements is presented only to facilitate financial analysis. Data in this column is not the equivalent of consolidated financial information.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

An annual budget is adopted for the Town's General Fund. Although legislative approval is required for the acceptance of grants, capital projects, and borrowing authorizations, annual budgets are not prepared for any other fund; therefore, comparison of budget to actual is only presented for the General Fund.

The Town must establish its property tax rate each year so that the property tax rate levy will comply with the limits established by Proposition 2 1/2, as amended, and also equal the sum of (a) the aggregate of all annual appropriations for expenditures, plus (b) provision for prior year deficits, if any, less (c) the aggregate of all non-property tax revenues estimated to be received, including available funds.

The Town follows these procedures in establishing the General Fund budgetary data as reflected in the financial statements:

- Estimates are submitted by departments in accordance with the Town's bylaws.
- The budget is legally enacted by vote at the annual Town meeting.
- Supplemental appropriations may be made from available funds after setting of the tax rate with Town meeting approval.
- Throughout the year appropriations may be transferred between departments with Town meeting approval.

Massachusetts law requires cities and towns to provide a balanced budget. Section 23 of Chapter 59 of the Massachusetts General Laws states, in part,

"The assessors shall annually assess taxes to an amount not less than the aggregate of all amounts appropriated, granted or lawfully expended by their respective towns (cities) since the preceding annual assessment and not provided for therein . . . "

For fiscal year 2023, the Town incurred a final budget deficit of \$2,466,106 for the General Fund.

The Town voted from the following sources to fund the deficit budget during the fiscal year:

Unassigned fund balance:	
Free cash votes	\$ 861,515
Prior year's encumbrances	 1,604,591
	\$ 2,466,106

B. Deficit Fund Balance

The following fund has a deficit at June 30, 2023 as measured by the balance of unreserved fund balance.

• The Emergency management (Covid-19) grant special revenue funds have deficits totaling of \$68,490. These deficits will be eliminated upon additional receipts or appropriation.

3. DETAILED NOTES

A. Deposits and Investments

Custodial Credit Risks – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned. The government does not have a deposit policy for custodial credit risk. Deposits at June 30, 2023 were \$9,836,677. Of these, none are exposed to custodial credit risk as uninsured and uncollateralized.

Investment Policies

Investments of funds, except for trust funds, are generally restricted by Massachusetts General Laws, Chapter 44, Section 55. That statute permits investments of available revenue funds and bond and note proceeds in term deposits and certificates of deposit of banks and trust companies, in obligations issued or unconditionally guaranteed by the federal government or an agency thereof with a maturity of not more than one year, in repurchase agreements with a maturity of not more than 90 days secured by federal or federal agency securities, in participation units in the Massachusetts Municipal Depository Trust ("MMDT"), or in shares in SEC-registered money market funds with the highest possible rating from at least one nationally recognized rating organization.

The MMDT is an investment pool created by the Commonwealth under the supervision of the State Treasurer's office. According to the State Treasurer, the Trust's investment policy is designed to maintain an average weighted maturity of 90 days or less and is limited to high-quality, readily marketable fixed income instruments, including U. S. Government obligations and highly-rated corporate securities with maturities of one year or less. The MMDT is an external investment pool that meets the criteria established under GASB Statement No. 79 to report its investments at amortized cost.

		 Inv	Investment Maturities (in Years)					
	Fair	 Less		4 4 a E		6 40 40		
Investment Type	Value	Than 1		1 to 5		6 to 10		
Debt Securities:								
U. S. treasury obligations	\$ 2,875,808	\$ 185,006	\$	2,179,108	\$	511,694		
U. S. government agencies	397,398	-		267,850		129,548		
Corporate bonds	4,635,926	1,040,373		2,904,494		691,059		
Money market mutual fund	4,143,971	4,143,971		-		-		
	12,053,103	\$ 5,369,350	\$	5,351,452	\$	1,332,301		
Other Investments:								
Certificates of depost	128,295							
Equity Mutual Funds	5,605,062							
Cash and Cash Equivalents	204,475							
	\$ 17,990,935							

As of June 30, 2023, the Town had the following investments and maturities:

Custodial Credit Risks

For an investment, custodial risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the Town's \$17,990,935 in investments, none are uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department but not in the Town's name. The Town has no policy on custodial credit risk.

Interest Rate Risk

The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The Town's exposure to credit risk as of June 30, 2023 is as follows:

Related Debt Instruments Moody's Quality Ratings	_	Fair Value				
U. S. Treasury Obligations:						
Aaa	\$	2,875,808				
U. S. Government Agencies:						
Aaa		397,398				
Corporate Bonds:						
Aaa		537,639				
A1		1,005,169				
A2		542,116				
Baa1		310,619				
Baa2		2,240,383				
Money Market Mutual Funds:						
Not rated		4,143,971				
	\$	12,053,103				

Concentration of Credit Risk

The Town places no limit on the amount the Town may invest in one issuer. More than 5 percent of the Town's investments are in Corporate Bonds in American Telephone and Telegraph Company of and 5.68% of the Town's total investments.

Fair Value of Investments

The Town categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

	le Measuren	nent					
Investment Type			Significant Other Observable Inputs (Level 2)		Significant Unobservabl Inputs (Level 3)		
Investments by Fair Value Level:							
U. S. treasury obligations	\$	2,875,808	\$ 2,875,808	\$	-	\$	-
U. S. government agencies		397,398	397,398		-		-
Cash and Cash Equivalents		204,475	204,475		-		-
Certificates of deposit		128,295	128,295		-		-
Equity mutual funds		5,605,062	5,605,062		-		-
Money market mutual fund		4,143,971	4,143,971		-		-
Corporate bonds		4,635,926	-		4,635,926		-
	\$	17,990,935	\$ 13,355,009	\$	4,635,926	\$	-

The Town has the following recurring fair value measurements as of June 30, 2023:

Investments classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets for those securities.

Investments classified in Level 2 are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

B. Receivables

At June 30, 2023, receivables for the individual major governmental funds and non-major governmental funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	Allowance					
	Gross		for			Net
		Amount	U	ncollectibles		Amount
Major and nonmajor governmental funds:						
Property taxes	\$	31,695	\$	(3,000)	\$	28,695
Tax liens		21,654		-		21,654
Excise taxes		36,585		(7,000)		29,585
Departmental		179,030		(18,607)		160,423
Due from other governments		474,622		-		474,622
	\$	743,586	\$	(28,607)	\$	714,979

At June 30, 2023, receivables for the business-type activities consist of the following:

	Allowance						
	Gross Amount	for Uncollectibles	Net Amount				
Water Fund: User charges	8,099	(500)	7,599				

The composition of amounts due from other governments as of June 30, 2023 for governmental funds is as follows:

General Fund: Commonwealth of Massachusetts: Department of Veterans Services: Veterans benefits		\$ 9,541
Nonmajor Governmental Funds:		
U. S. Department of Agriculture: School lunch U. S. Department of Education:	\$ 8,306	
School title grants	19,850	
Commonwealth of Massachusetts:		
Department of Elementary & Secondary Education:		
School lunch	1,910	
Board of Library Commissioners	1,588	
Department of Environmental Protection	49,830	
Department of Housing and Community Development	9,625	
Department of Elder Affairs	2,977	
Department of Mental Health	33,706	
Massachusetts Department of Transportation:		
Highway department - Chapter 90 funds	337,289	465,081
		\$ 474,622

C. Deferred Inflows of Resources – Unavailable Revenue

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At the end of the current fiscal year, the various components of deferred inflows of resources reported in the governmental funds are as follows:

General Fund:			
Property taxes	\$ 21,895		
Tax liens	21,654		
Excise taxes	29,585		
Due from other governments	 9,541	\$	82,675
Nonmajor governmental funds:		-	
Departmental	160,423		
Due from other governments	 337,288		497,711
		\$	580,386

D. Capital Assets

Capital asset activity for the year ended June 30, 2023, is as follows:

Governmental Activities	Beginning Balance	Increases	De	creases	Ending Balance
Capital assets not being depreciated:					
Land	\$ 1,524,895	\$ 20,974	\$	- \$	1,545,869
Construction in progress	73,700	59,000		-	132,700
Total capital assets not being depreciated	1,598,595	79,974		-	1,678,569
Capital assets being depreciated:					
Buildings and Renovations	18,955,304	43,922		-	18,999,226
Machinery, equipment and other	2,932,716	452,928		-	3,385,644
Infrastructure	3,821,281	-		-	3,821,281
Total capital assets being depreciated	 25,709,301	496,850		-	26,206,151
Less accumulated depreciation for:					
Buildings and Renovations	7,388,676	569,787		-	7,958,463
Machinery, equipment and other	2,633,435	137,567		-	2,771,002
Infrastructure	1,383,619	172,776		-	1,556,395
Total accumulated depreciation	11,405,730	880,130		-	12,285,860
Total capital assets being depreciated, net	 14,303,571	(383,280)		-	13,920,291
Total governmental activities capital assets, net	\$ 15,902,166	\$ (303,306)	\$	- \$	15,598,860

Business-type Activities	E	Beginning Balance	•		Decreases	Ending Balance	
Capital assets not being depreciated:							
Land	\$	90,100	\$	-	\$ - \$	90,100	
Construction in Progress		2,152,998		212,643	(2,365,641)	-	
Total capital assets not being depreciated		2,243,098		212,643	(2,365,641)	90,100	
Capital assets being depreciated:							
Machinery, equipment and other		217,613		32,852	-	250,465	
Infrastructure		9,360,379		2,365,641	-	11,726,020	
Total capital assets being depreciated		9,577,992		2,398,493	-	11,976,485	
Less accumulated depreciation for:							
Machinery, equipment and other		94,579		33,849	-	128,428	
Infrastructure		3,898,577		261,108	-	4,159,685	
Total accumulated depreciation		3,993,156		294,957	-	4,288,113	
Total capital assets being depreciated, net		5,584,836		2,103,536	-	7,688,372	
Total business-type activities capital assets, net	\$	7,827,934	\$	2,316,179	\$ (2,365,641) \$	7,778,472	

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities:	
General government	\$ 15,011
Public safety	136,292
Public works	237,943
Education	218,903
Health and human services	77,213
Culture and recreation	 194,768
Total depreciation expense - governmental activities	\$ 880,130
Business-Type Activities:	
Wastewater fund	\$ 244,177
Water fund	 50,780
Total depreciation expense - business-type activities	\$ 294,957

E. Interfund Receivables, Payables and Transfers

Interfund transfers for the fiscal year ended June 30, 2023, are summarized as follows:

		Trans	ı			
Transfers Out:	General fund		Вι	usiness-type fund		Total
General fund Nonmajor governmental funds Business-type fund	\$	- - 84,456	\$	744,070 242,009 -	\$	744,070 242,009 84,456
Total transfers out	\$	84,456	\$	986,079	\$	1,070,535

F. Lease Liability

The Town has entered into a non-cancelable lease for financing a loader for the department of public works. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of their future minimum lease payments as of the inception date.

The assets acquired through the capital leases are as follows:

	 vernmental activities
Asset:	
Machinery, Equipment and Other	\$ 202,500
Less: Accumulated Depreciation	 (14,464)
Total	\$ 188,036

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2023, are as follows:

Year Ending June 30,	 ernmental ctivities
2024	\$ 54,669
2025	54,579
2026	54,671
Total minimum lease payments	 163,919
Less: amount representing interest	 (16,088)
Present value of minimum lease payments	\$ 147,831

G. Long Term Debt

General Obligation Bonds

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities.

General obligation bonds currently outstanding of the business-type fund are as follows:

	Interest Rate	Date Issued	Final Maturity Date	Original Amount Issued	utstanding ne 30, 2023
Inside Debt: Wastewater Fund:					
Municipal Purpose Loan of 2022: Wastewater treatment plant	3.69%	6/15/2022	6/1/2042	\$ 1,570,000	\$ 1,520,000
Outside Debt:					
Wastewater Fund: Massachusetts Clean Water Trust:					
Wastewater treatment plant	2.00%	3/18/2009	7/15/2028	4,511,419	 1,542,052
Total business-type debt					\$ 3,062,052

The annual principal and interest payments to retire all business-type long-term debt outstanding as of June 30, 2023, are as follows:

Year	Principal	Interest	Total
2024	\$ 294,331	\$ 91,648	\$ 385,979
2025	304,267	84,212	388,479
2026	314,303	76,426	390,729
2027	319,440	68,288	387,728
2028	329,682	60,048	389,730
2029-2033	635,029	213,950	848,979
2034-2038	445,000	130,380	575,380
2039-2042	 420,000	40,270	460,270
	\$ 3,062,052	\$ 765,222	\$ 3,827,274

A summary of the changes in governmental activities and business-type long term liabilities during the year is as follows:

	Balance uly 1, 2022	Additions	R	eductions	Ju	Balance ne 30, 2023	ounts Due ithin One Year
Governmental activities:

Massachusetts Clean Water Trust (MCWT)

The Town received a 2% interest MCWT loan with principal in the amount of \$4,511,419 and interest costs of \$943,160. The gross amount outstanding at June 30, 2023 for principal and interest combined for the loans is \$1,636,374. Since the Town is legally obligated for the total amount of the debt, such amounts for the gross principal have been recorded on the financial statements. This loan is not scheduled to be subsidized by the MCWT.

Legal Debt Limit

Under Section 10 of Chapter 44 of the Massachusetts General Laws a Town may authorize indebtedness up to a limit of five percent of its equalized valuation of the Town. Debt issued in accordance with this section of the law is designated as being "inside the debt limit." The Town's inside debt at June 30, 2023 totaled \$1,520,000.

In addition, the Town is authorized to incur debt outside of that limit for specific purposes. Such debt, when issued, is designated as being "outside the debt limit."

The following is a computation of the legal debt limit as of June 30, 2023:

Equalized Valuation-Real Estate and Personal Property (2022)		\$ 969,923,800
Debt Limit: 5 % of Equalized value		48,496,190
Total Debt Outstanding	\$ 3,062,052	
Less: Debt Outside Debt Limit	 (1,542,052)	1,520,000
Inside Debt Excess Borrowing Capacity at June 30, 2023		\$ 46,976,190

Loans Authorized and Unissued - Memorandum Only

Under the general laws of the Commonwealth of Massachusetts a Town must authorize debt at a Town meeting. This authorized debt does not have to be actually issued at that time and remains authorized until the debt is actually issued or Town meeting votes to rescind the authorized debt. Loan authorizations that have not been issued as of June 30, 2023 and are not reflected in the Town's financial statements are as follows:

Date Town Meeting		
Authorized	Purpose	Amount
5/11/2022	Church Street bridge project	\$ 1,600,000

H. Fund Balances

The following is a summary of the Governmental fund balances at the year ended June 30, 2023:

	General Fund	G	Nonmajor Governmental Funds	Go	Total vernmental Funds
Nonspendable: Permanent funds	\$ -	\$	9,840	\$	9,840
Restricted: Federal, state and local grants School revolving funds Town revolving funds Loan programs Donations and gifts Permanent funds Other			939,481 101,181 74,528 177,076 22,408 24,222 197,633		939,481 101,181 74,528 177,076 22,408 24,222 197,633

Unassigned: General fund Special revenue deficits	 14,663,879 - 14,663,879		- (68,490) (68,490)		14,663,879 (68,490) 14,595,389
Total Governmental fund balances	\$ 17,350,771	\$	1,545,593	\$	18,896,364

I. Special Trust Funds

Stabilization Fund

Massachusetts General Laws, Chapter 40, Section 5B, allows for the establishment of stabilization funds for one or more different purposes. The creation of a fund requires a two-thirds vote of the legislative body and must clearly define the purpose of the fund. Any change to the purpose of the fund along with any additions to or appropriations from the fund requires a two-thirds vote of the legislative body. Any interest shall be added to and become a part of the fund.

At June 30, 2023 the balances in the stabilization funds are reported in the General Fund as unassigned fund balance consisting of the following:

General purpose stabilization fund	\$ 10,951,377
Capital stabilization fund	882,896
	\$ 11,834,273

4. OTHER INFORMATION

A. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Town has obtained a variety of commercial liability insurance policies which passes the risk of loss listed above to independent third parties.

Settlement claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Hampshire County Health Group

The Town, along with other government entities from the neighboring geographic area, is a member of the Hampshire County Health Group (HCHG), a public entity risk pool, currently operating as a common risk sharing management and health insurance program for eligible active and former employees of its members.

Payments in the form of insurance premiums, are made monthly to the HCHG. These payments are funded in part from the Town, recorded as expenditures in the general fund, and payroll withholdings from active employees, or direct payments from retired and certain eligible former employees. The Town pays between 55% and 74% of the cost of the insurance for active employees. Retired and other past employees who may be eligible to participate in the plan must pay between 26% and 45% of their premium costs.

The Town makes payments to HCHG in the form of monthly premiums based upon actual employee enrollment. HCHG makes payment, through a third-party administrator for actual health claims incurred for the entire group. At the end of HCHG's fiscal year, the Group's insurance consultant will determine if assets are sufficient to meet the anticipated needs of the ensuing year. It is anticipated that if claim liabilities exceed assets, premium rates will be adjusted prospectively to recover the necessary assets to meet claims.

As of the HCHG's most recent audited financial statements (fiscal year ended June 30, 2022), the HCHG had an unrestricted net asset balance of \$28,119,833.

B. Contingent Liabilities

Litigation

Litigation is subject to many uncertainties, and the outcome of individual matters is not always predictable. Although the amount of the liability, if any, at June 30, 2023, cannot be ascertained, management believes any resulting liability should not materially affect the financial position at June 30, 2023.

The Town has received state and federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for any expenditure disallowed under the terms of the grant. The amount, if any, of expenditures which may be disallowed cannot be determined at this time, although, based on prior experience, Town management believes such disallowances, if any, will not be material.

C. Subsequent Events

Management has evaluated subsequent events through the date the financial statements were available to be issued.

D. Major Taxpayer

Western Massachusetts Electric Company, in conjunction with the Northeast Generations Company, paid \$9,793,585 in property taxes in fiscal year 2023. This accounted for approximately 81% of the fiscal year 2023 real estate and personal property tax levy.

E. Pension Plan

Plan Description

The Town is a member of the Franklin Regional Retirement System (the System). The System is a costsharing multiple-employer public employee retirement system administered by the Franklin Regional Retirement Board (the Board). Massachusetts General Laws (MGL), Chapter 32, assigns authority to establish the System and amend benefit provisions of the plan; which is regulated by the Public Employees Retirement Administration Commission (PERAC). The System is a defined benefit pension plan that covers substantially all employees of its member employers except for current and retired teachers. The System issues a publicly available financial report in accordance with guidelines established by the Commonwealth's PERAC. That report may be obtained by contacting the System at 278 Main Street, Suite 311, Greenfield Massachusetts 01301.

The Town is a member of the Massachusetts Teachers' Retirement System (MTRS), a cost-sharing multiemployer defined benefit plan, to which the Town does not contribute. MTRS is managed by the Commonwealth of Massachusetts (Commonwealth) on behalf of municipal teachers and municipal teacher retirees. The Commonwealth is a nonemployer contributor and is responsible for the contributions and future benefit requirements of the MTRS.

Special Funding Situation

The Commonwealth is a nonemployer contributor and is responsible by statute to make all actuarially determined contributions and future benefit requirements on behalf of the Town to the MTRS. Therefore, the Town is considered to be in a special funding situation as defined by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the Commonwealth is a nonemployer contributor in the MTRS. Since the Town does not contribute directly to MTRS, there is no pension liability to recognize. The total of the Commonwealth provided contributions have been allocated based upon each employer's covered payroll to the total covered payroll of employers in MTRS as of the measurement date of June 30, 2022. The Town's portion of the collective pension expense contributed by the Commonwealth of \$449,392 on-behalf payments for the fiscal year ending June 30, 2023 is reported as intergovernmental on-behalf payments in the revenue and employee benefits and insurance in the General Fund.

Benefits Provided

The System provides retirement, disability, and death benefits to plan members and beneficiaries. Members become vested after 10 years of creditable service and are eligible for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. Retirement benefits are determined as a percentage of the member's final three-year (five-year for members hired on or after April 2, 2012) final average compensation times the member's years of creditable service prior to retirement. The percentage is based on the age of the member at retirement and his or her Group classification. The authority for amending these provisions rests with the Massachusetts Legislature.

Employees who resign from service and who are not eligible to receive a retirement allowance or are under the age of 55 are entitled to request a refund of their accumulated total deductions. Survivor benefits are extended to eligible beneficiaries of members whose death occurs prior to or following retirement.

Cost of living adjustments granted between 1981 and 1997 and any increases in other benefits imposed by the Commonwealth's State law during those years are borne by the Commonwealth and are deposited into the pension fund. Cost-of-living adjustments granted after 1997 must be approved by the Board and are borne by the System.

Contributions

MGL Chapter 32 governs the contributions of plan members and the Town. Plan members are required to contribute to the System at rates ranging from 5% to 9% based upon their membership date with an additional 2% contribution after exceeding \$30,000 in annual covered compensation. The Town is required to pay into the System its share of the system-wide actuarial determined contribution that is apportioned among the employers based on active current payroll. Administrative expenses are funded through investment earnings. The Town's proportionate share of the required contribution to the System for the year ended December 31, 2022 was \$419,731, representing 23.09% of the covered payroll, an actuarially determined amount that, when combined with plan member contributions, is expected to finance the costs of benefits earned by plan members during the year and an additional amount to finance any unfunded accrued liability.

Pension Liability

As of June 30, 2023, the Town reported a liability of \$3,503,205 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2022. Accordingly, update procedures were used to roll forward the total pension liability to the measurement date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At December 31, 2022, the Town's proportional percentage was 5.16%, which was a slight increase from the last measurement.

Pension Expense

For the year ended June 30, 2023, the Town recognized a pension expense of \$662,290 and reported deferred outflows of resources related to pensions of \$1,260,792 from the differences between expected and actual experience, the net difference between projected and actual investment earnings on pension plan investment, changes in assumptions and changes in proportion and differences between employer contributions and proportionate share of contributions; and deferred inflows of resources related to pensions of \$7,214 from the differences between expected and actual experience.

The Town's net deferred outflows/(inflows) of resources related to pensions will be recognized in the pension expense as follows:

For years ended June 30,		
	2024	\$ 224,414
	2025	334,820
	2026	269,668
	2027	 424,676
		\$ 1,253,578

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of January 1, 2022, using the following actuarial assumptions, applied to all periods included in the measurement that was roll forward to December 31, 2022:

Valuation date	January 1, 2022
Actuarial cost method	Individual Entry Age Normal
Amortization method	Increasing dollar amount at 4.0% to reduce the Unfunded Actuarial Accrued Liability to zero on or before June 30, 2034.
Inflation	2.40% per year
Projected salary increases	Group 1 & Group 2: 4.00% 6.00%, based on service Group 4: 4.50% 7.00%, based on service
Investment rate of return	7.25%, net of pension plan investment expense, including inflation
Cost of living adjustments	3.00% of the pension amount on first \$17,000 per year.
Mortality rates	 RP-2014 Blue Collar Mortality Table with full generational mortality improvement using Scale MP-2020. For disabled members, RP-2014 Blue Collar Mortality Table set forward one year with full generational mortality improvement using Scale MP-2020.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation.

Best estimates of arithmetic real rates of return for each major class included in the System's target asset allocation as of December 31, 2022, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
PRIT Core	40.0%	5.10%
Domestic Equity	32.0%	4.50%
International Equity	5.0%	5.73%
Real Estate	10.0%	3.10%
Fixed Income	13.0%	2.10%
Total	100.0%	=

Rate of Return

For the year ended December 31, 2022, the annual money-weighted rate of return (which expresses investment performance), net of investment expense was (12.86%). The money-weighted rate of return is calculated as the internal rate of return on pension plan investments, net of pension plan investment expense. A money weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. Inputs to the money weighted rate of return calculation are determined monthly.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that member employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits for the current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service cost for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the plan fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.25%. As well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

				Current			
	1%	1% Decrease 6.25%		scount Rate 7.25%	1% Increase 8.25%		
Town's net pension liability	\$	4,899,299	\$	3,503,205	\$ 2,321,792		

F. Other Post-Employment Benefits Payable

GASB Statement No. 74 and GASB Statement No. 75

The cost of post-employment benefits generally should be associated with the periods in which costs occur rather than in the future year when it will be paid. The Town recognizes the cost of post-employment benefits in the year when the employee services are received, reports the accumulated liability from prior years and provides information useful in assessing potential demands on the Town's future cash flows.

Plan Description

In addition to providing pension benefits as described on the following footnote, the Town provides postemployment health care and life insurance benefits for retired employees, their dependents and beneficiaries. The benefits, benefit levels, employee and employer contributions are governed by Massachusetts General Law chapter 32. As of the actuarial valuation date there are approximately 154 active and retired employees that meet the eligibility requirements. The plan does not issue a separate financial report.

Investments

The OPEB Trust fund does not have a formal investment policy. The OPEB plan's assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the OPEB plan. As of June 30, 2023, investments, concentration and rate of return information consisted of pooled funds in the Town's Bartholomew Commonwealth Financial investments described earlier under Investment Policies (refer to note 3A).

Funding Policy

The contribution requirements of plan members and the Town are established and may be amended through Town ordinances. For the period ending on the June 30, 2023 Measurement Date, total Town premiums plus implicit costs for the retiree medical program were \$289,972. The Town also made contributions to an OPEB Trust of \$300,000 for a total contribution of \$589,972. The Town did establish a trust fund in order to contribute funds to reduce the future OPEB liability. As of June 30, 2023, the trust balance is \$6,082,817.

Measurement Date

GASB Statement No. 74 and GASB Statement No. 75 require the net OPEB liability to be measured as of the OPEB Plan's most recent fiscal year-end. Accordingly, the net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2021.

Plan Membership:

Current active members	83
Current retirees, beneficiaries and dependents	71
Total	154

Net OPEB Liability

The components of the net OPEB liability are as follows:

	 6/30/2023
Total OPEB liability Less: Plan fiduciary net position	\$ 8,619,477 (6,082,817)
Town's Net OPEB liability	\$ 2,536,660
Plan fiduciary net position as a percentage of the total OPEB liability	70.57%

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2021, using the following actuarial assumptions, applied to all periods included in the measurement that was used to calculate the actuarially determined contribution as of June 30, 2023, unless otherwise specified:

Actuarial cost method Individual	Entry Age Normal
Asset valuation method Market va	lue of assets as of the measurement date.
Investment rate of return 5.88%, ne	t of OPEB plan investment expense including inflation
Single equivalent discount rate 5.88% net	t of OPEB plan investment expense, including inflation
Inflation rate 2.50% as	of June 30, 2023 and for future periods
Participant salary increases 3.00% and	nually as of June 30, 2023 and for future periods
Healthcare cost trend rates 9.00% init	ially in 2021 trending down to 3.63% in 2060+
(General)generation forwardPost-retirement mortalityRP-2014(General)generation forwardDisabled retireesRP-2014(General)generation forward on forward on forward on forward on Pre-retirement mortalityPre-retirement mortalityRP-2014(Teachers)generation generation forward on generation forward on generation forward on forward on generation forward on generation forward on generation forward on generation forward on generation forward on generation generation generation generation generationDisabled retireesRP-2014	Mortality Table for Blue Collar Employees projected nally with scale MP-2016 for males and females, set one year for females. Mortality Table for Blue Collar Healthy Annuitants projected nally with scale MP-2016 for males and females, set one year for females. Mortality Table for Blue Collar Healthy Annuitants projected nally with scale MP-2016 for males and females, set ne year. Mortality Table for White Collar Employees projected nal with Scale MP-2016 for males and females. Mortality Table for White Collar Healthy Annuitants projected nal with Scale MP-2016 for males and females. Mortality Table for White Collar Healthy Annuitants projected nal with Scale MP-2016 for males and females. Mortality Table for White Collar Healthy Annuitants projected nal with Scale MP-2016 for males and females.

The actuarial assumptions used the July 1, 2021 actuarial valuation and market value of assets as of the measurement date of June 30, 2023 were reflective of published municipal bond indices; the S&P Municipal Bond 20-year High Grade Index-SAPIHG as of June 30, 2023 is 4.13%.

Rate of Return

For the year ended June 30, 2023, the annual money-weighted rate of return (which expresses investment performance), net of investment expense was 7.00%.

Long-term Expected Rate of Return

The long-term expected rate of return on OPEB plan investments is developed based on the Town's investment policy is summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return *
Domestic Equity - Large Cap	26.25%	4.10%
Domestic Equity - Small/Mid Cap	14.75%	4.55%
International Equity - Developed Market	12.50%	4.64%
International Equity - Emerging Market	7.00%	5.45%
Domestic Fixed Income	21.25%	1.05%

Net change in total OPEB liability		64,642		678,329		(613,687)
Balances at June 30, 2023	\$	8,619,477	\$	6,082,817	\$	2,536,660

* = Recognized immediately

** = Amortized over 6.21 years

Discount Rate

The discount rate used to measure the total OPEB liability was 5.88%. The projection of cash flows used to determine the discount rate assumed that contributions will be made in accordance with the Town's funding policy. Based on these assumptions, the OPEB Plan's Fiduciary Net Position is projected to be sufficient to make all projected benefit payments to current plan members. Therefore, the long-term expected rate of return on OPEB Plan assets was applied to all projected future benefits payments.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the Town's the net OPEB liability as well as what the Town's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.88%) or 1-percentage-point higher (6.88%) than the current rate:

		Decrease 4.88%	Current Discount Rate 5.88%			1% Increase 6.88%		
Town's net OPEB liability	\$	3,842,263	\$	2,536,660	\$	1,484,587		

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Trend Rates

The following presents the Town's net OPEB liability as well as what the Town's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

			Healthcare Cost Trend		
	1%	Decrease	Rates	1% Increase	
Town's net OPEB liability	\$	1,389,102	\$ 2,536,660	\$	3,974,181

Summary of Significant Accounting Policies

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the Plan and additions to or deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts (repurchase agreements) that have a maturity at the time of purchase of one year, which are reported at cost.

Expense, Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2023, the GASB Statement No. 75 reporting period and fiscal year ending date, the Town recognized an OPEB expense of \$300,242 and reported deferred outflows of resources related to OPEB of \$1,846,679 from the differences between actual and expected experience, changes in assumptions and the net difference between projected and actual investment earnings on OPEB plan investments; and deferred inflows of resources related to OPEB of \$333,097 from the differences between actual and expected experiences and changes in assumptions.

The Town's net deferred outflows/(inflows) of resources related to OPEB will be recognized in the OPEB expense as follows:

For years ended June 30,	
2024	\$ 411,805
2025	386,166
2026	537,441
2027	202,191
2028	(11,641)
Thereafter:	 (12,380)
	\$ 1,513,582

G. Implementation of New GASB Pronouncements

The GASB issued Statement No. 91, *Conduit Debt Obligations,* for implementation in fiscal year 2023. The adoption of this standard did not have a material impact on the Town's financial statements.

The GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, for implementation in fiscal year 2023. The adoption of this standard did not have a material impact on the Town's financial statements.

The GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements,* for implementation in fiscal year 2023. The adoption of this standard did not have a material impact on the Town's financial statements.

H. Future GASB Pronouncements

Management is currently assessing the impact the implementation of the following pronouncements will have on the basic financial statements.

The GASB issued Statement No. 99, *Omnibus 2023,* clarification on GASB No. 34 Management's Discussion and Analysis; on GASB No. 63 Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position; requirements related to leases and requirements related to derivative instruments for implementation in fiscal year 2023 and 2024.

The GASB issued Statement No. 100, Accounting Changes and Error Corrections—An Amendment of GASB No. 62, for implementation in fiscal year 2024.

The GASB issued Statement No. 101, Compensated Absences, for implementation in fiscal year 2025.
